Support After Abortion – Men’s National Post Personal Abortion Study
June 15th – 24th, 2021

Sample:

Men over 18 years old or older, living in the U.S. who have personally experienced an abortion at some time.
 n= 100, MoE ± 9.8%

Introduction:

Hello, I’m _____, and I’m calling from Shapard Research, a nationwide public opinion research firm. Thank you for taking the time to talk with me. Nearly two million reproductive losses occur in the U.S. every year through miscarriage, abortion, stillbirths and even adoption. Some individuals at some point in their life struggle with their loss, others don’t. For those who do, it can be difficult to tell someone about a past reproductive loss. Many don’t know who to turn to or who they can trust. The fear of being judged, condemned and rejected is real. There is help available and we want to make sure anyone who wants help can find it. Could you take just a moment to answer these questions? You would be helping us to help others. Please be assured that we are not trying to sell you anything and your individual answers are confidential.

**Q7. [IF YES IN Q6] In what way has the loss affected you?
[RECORD VERBATIM]**

I felt sad for 3 months

I find it hard to trust my partners any more

I have been feeling very depressed and guilty.

I just wonder what my child would've been like today. This really got bad after the birth of my only child. Major feelings of guilt and regret.

I swore the next one I'm keeping, and honestly sometimes the 'pipes' got to clean themselves and well, money is first. I got really depressive over it. There's no way I'll let myself love another until my financial status changes. I would rather die than have the wrong kid, so basically I would end up forcing any accidental pregnancy to be an abortion right now. I can't say I will pull out of the strange feeling that I could have been a dad a few times. I try not to think about it. Maybe when I'm old enough to have a kid. For now I think sending nuclear warheads via space barge into Mars would make me happier as a guy thinking about that and how cool it would be. Yeah that's satisfying to me...what a happy thought rather than have another abortion.

I wanted the child, my girlfriend didn't. I told her it would be the end of our relationship, If she went through with it. I ended the relationship shortly after. I was devastated.... she called me years later to tell me she was sorry and had bad dreams and regrets often and wish she wouldn't have done it. I always say, " I'm pro Choice in the sense that people should have the ability to get one. But, you damn sure better not use taxpayer money to do it. (No matter what you say, Planned Parenthood gets taxpayer money.) The other thing I say, is, "don't piss on my leg and tell me it's raining" look me in the eye and call abortion for what it is...the killing of life. Get real and call it for what it is... by saying it's just a fetus is a bullshit way for people to cop out of the fact that they're about ready to take a life." Hell, if we found bacteria on Mars, people would be celebrating that we found life on Mars. But, a human being is brushed aside and called a fetus to make YOU feel better for what you're about to do. It bullshit, just get real and call it what it is murder.
